

Troforte Fertilizers Product Guide

About Troforte

Troforte is a leading Australian fertilizer brand known for its biologically enriched, mineral-based formulations that combine controlled-release nutrients with beneficial microbes. Their product philosophy revolves around regenerating soil health, improving plant nutrition naturally, and reducing environmental harm. Troforte fertilizers are developed and distributed by Langeley Fertilizers, a division of Sunpalm Australia.

Key Innovations:

- Up to 60 natural minerals and up to 24 beneficial soil microbes
- Long-term nutrient delivery (up to 9 months)
- Environmentally friendly: non-leaching, reef-safe, and root-safe
- Suitable for commercial, residential, and native plant use

1. Troforte All Purpose

For general gardens and mixed plantings including trees, shrubs, natives, and flowering plants.

- 6-month controlled-release
- Pack sizes: 3.5kg Tub, 10kg Tub, 20kg Bag

2. Troforte Native

Specially for Australian native plants and phosphorus-sensitive species like proteas.

- 6-month release
- Pack sizes: 3.5kg, 10kg, 20kg

3. Troforte Fert-O-Lawn

Formulated for all lawn types. Mini-granules help even spreading and boost drought resistance.
